

Trusted, Comfortable Dental Excellence

Latest news from Advance Family Dental

Message from Dr. Zollinger:

It's a daily challenge to stay on top of technology in dentistry. I've taken the viewpoint that I continue to evolve and grow my practice hand-in-hand with the strength and power of the latest innovations. One of those enhancements is our CEREC system where we can make a crown in our office and have you on your way out the door in less than 2 hours.

In addition, we've joined Facebook! I encourage you to "Like" the Advance Family Dental business page to keep up to date with my news posts and the latest dentistry tips. Facebook is another tool that we're using to communicate with our patients. I look forward to seeing you online.

2 hour Crowns with CEREC™

In talking to patients, the biggest concern is the number of visits and time it takes to get a crown. Technology has helped reduce time and office visits through a system called CEREC. A CEREC crown is completed in one visit and typically takes less than 2 hours. Listen to what our patients are saying – below is a testimonial from a patient who recently experienced a CEREC crown.

"I have had a crown put on before by a previous dentist and it was the worst dental experience I ever had! To avoid further problems I had to go through it again and I was expecting nothing but the same this time around. But, I was pleasantly surprised. Two hours after arriving into Dr. Z's office, I had a new crown (not a temporary crown) on my tooth! The drilling was minimal and painless (that's the part I hate the most), and I even got to watch my new 'tooth' being made in the Cerec machine! Since leaving the doors of Advance Family Dental, I have experienced no tooth discomfort, no longer have a crack in my tooth and can even eat normally on that side of my mouth. Because of Dr. Z and the new Cerec technology, I am no longer going to avoid visiting the dentist!" Jenna, patient

We know that it's easy to postpone this type of appointment. In some cases, prolonged postponement can result in further problems and longer appointments. CEREC doesn't cost more than "the old fashioned way" and it's a one-time visit. More CEREC information is found on our website. Feel free to call us to answer further questions on CEREC and we can answer your financing questions.

Find us on Facebook and Get a \$10 Target Gift Card

Follow these steps to get your Target gift card:

1. Become a Fan of Advance Family Dental on Facebook
2. Set up your next hygiene appointment before December 31, 2010
3. Pick up your free \$10 Target gift card at your scheduled appointment

One gift card per person, not to be combined with other offers. You must be a registered "Fan" on Facebook and over age 13. The appointment must be completed before December 31, 2010.

Did you know?

You can get your appointment confirmation via email. Update your records by calling the office or at your next visit.

CEREC crowns in less than 2 hours – make your appointment today!
